### **From Team McCline:**

**We have officially accepted a fight in Moscow, Russia on the 25th of December against Daniil Peretyatko. After coming out of a 2 year retirement, I have already seen victory with a comeback fight in Greensboro, NC 12/3/11. After only 3 months of rigorous training we plan to start our international stint in Moscow. I have a fondness for Russia as I have spent many months there training previously with great fighters such as Alexander Povetkin and Denis Lebedev. I am grateful to have the opportunity to fight for a live national television audience for my International fans that have shown so much support over the years. This fight will be the beginning of a succession of national and international bouts that will ultimately end with a unprecedented 5th World title shot.**
