

"This fight reminded me of an old Looney Tunes Cartoon Featuring Elmer Fudd shooting fish in a barrell and hunting ducks with a bazooka. How easy is it to look impressive while hitting a human punch-bag who won't hit back? This was another disgraceful matchup that actually sold out a 50,000 Arena in Europe where the fans drink more Kbrothers flavored koolaid than anywhere else in the world. If this fight happened anywhere else in the world,.. the audience would have torched the arena."--Brown Sugar no fan of Mormeck either
