

"I think Bute wins on points but I do think Froch is a real live underdog. If Froch can make an impact in the first half of the fight, take something out of Bute and avoid getting hurt himself, even if he's well behind on the cards he can come on in the second half of the fight. If Froch wins it's a late stoppage in a great fight but in all probability Bute on points. I hope Froch wins for his fearless approach to taking tough fights (unlike certain other big name fighters we could mention)." --Gibola hoping for an upset on Saturday
