

"I respect this version of Mayweather. Professional, respectful and dedicated. However fighting the No. 5 welterweight is not cementing his legacy.

To do that he needs to take on the #1 fighters. Canelo is there at 154 and unless he takes that he will continue to be a cherry picker.

Just like when he did not fight a prime Margarito, Williams, Pacman, Sergio Martinez and Cotto." --Amayseng thinks Mayweather is a too-careful matchmaker
